9. LIMITATIONS AND FUTURE ENHANCEMENTS

9.1 Limitations

- As it is an android application it can only be used on android devices.

- Internet is required to use this application.

- It is built for a specific organization so its use will be limited up to that organization and its employees.

9.2 Future Enhancement

- As the organization works on three different departments which are energy, engineering and IT/CE, so in future this application would be implemented in these departments.

- Weekly report can be send to intern as by e-mail.

- Test domain may also be implemented.

- In this application we have just designed a static registration page for intern in future we can scan intern photo to view.
